THE LUCKY ONES ARE DEAD.

Live the nightmare of D as the horror begins in Los Angeles National Hospital. As Laura, you must find out why your father, hospital director Dr. Richter Harris, has lost his sanity, murdered some of the patients, and taken others hostage.

Are you prepared to solve the deadly crime? Among other loathsome acts, you must remove a ring from a rotting hand, avoid being impaled on wall spikes, and get out of the room without doors! While the clock ticks, treachery awaits. Good luck...and sweet dreams!

To avoid a possible medical problem, if you have an epileptic condition, consult your physician before playing video games or any other visually intensive software products.

To avoid either of these situations, and as sound practice, if you should use this equipment for an extended period of time, it is suggested that you take periodic breaks of 10-15 minutes each hour. MESSAGE

Thank you very much for purchasing the "D" interactive software title. Warp Inc. spent about one year working hard to develop this game for your enjoyment.

The best way to play this game is from the very beginning to the last scene.

Think of it as if it were an actual movie.

For this reason you have just 2 hours to solve the whole mystery.

Once a movie begins, you cannot stop the movie to get a box of popcorn. So we did not include a save option.

Please enjoy your movie-going experience.

Please continue to try to solve the mystery of "D" until you are able to watch the whole movie and discover the best ending.

Good luck and be careful!

MULTIPLE ENDINGS

Depending on Laura's actions, there are different endings to this game.

When the words "The End" appear on the screen, you have solved the mystery behind the sudden transformation of Dr. Richter Harris.

By watching this movie to the very last scene, you will know the true meaning behind "D".
